INVENTORY OF LEXICAL MATERIALS (FLP-D-1)

1. Action: Agreed to follow the procedure outlined in this document in conducting the inventory on lexical materials, subject to the revision of Tab B to move Serbo-Croatian (Item 35) above Slovak (Item 13) and strike Indian Languages (Item 32), the specific Indian languages having already been indicated in other items. It was understood that in reference to paragraph 4 of the procedure there was certainly no objection to any agency making inquiry of its own establishment on specific languages or all languages with regard to their holdings now or after the conclusion of the total inventory, which, according to schedule, would be November 1. While it was recognized that this target date may somewhat delay the next step, namely, the identification of needs for the preparation of new lexical materials, it was the consensus that the conclusion of the inventory itself would be a major step forward. Special notice was taken of the fact that this matter will now be handled by the Reference Subcommittee, pending its bringing special problems or a report to the Advisory Committee or any member of the Advisory Committee requesting that a problem on the subject be taken up.

SUBCOMMITTEES
